

§ 123.19

of ownership, and the Chief of the U.S. Diplomatic Mission or his designee in the country of destination has approved in writing to Department of State the import of the specific types and quantities of firearms into that country. The exporter shall provide a copy of this written statement to the District Director of Customs.

(b) *Ammunition.* District Directors of Customs shall permit not more than 1,000 cartridges (or rounds) of ammunition for the firearms referred to in paragraph (a) of this section to be exported (but not mailed) from the United States without a license when the firearms are on the person of the owner or with his baggage or effects, whether accompanied or unaccompanied (but not mailed).

§ 123.19 Canadian and Mexican border shipments.

A shipment originating in Canada or Mexico which incidentally transits the United States en route to a delivery point in the same country that originated the shipment is exempt from the requirement for an in transit license.

§ 123.20 Nuclear materials.

(a) The provisions of this subchapter do not apply to equipment in Category VI(e) and Category XVI of § 121.1 of this subchapter to the extent such equipment is under the export control of the Department of Energy or the Nuclear Regulatory Commission pursuant to the Atomic Energy Act of 1954, as amended, and the Nuclear Non-Proliferation Act of 1978.

(b) A license for the export of any machinery, device, component, equipment, or technical data relating to equipment referred to in Category VI(e) will not be granted unless the proposed export comes within the scope of an existing Agreement for Cooperation for Mutual Defense Purposes concluded pursuant to the Atomic Energy Act of 1954, as amended, with the government of the country to which the article is to be exported. Licenses may be granted in the absence of such an agreement only (1) if the proposed export involves an article which is identical to that in use in an unclassified civilian nuclear power plant, (2) if the proposed export has no relationship to

22 CFR Ch. I (4-1-02 Edition)

naval nuclear propulsion, and (3) if it is not for use in a naval propulsion plant.

§ 123.21 Duration, renewal and disposition of licenses.

(a) A license is valid for four years. The license expires when the total value or quantity authorized has been shipped or when the date of expiration has been reached, whichever occurs first. Defense articles to be shipped thereafter require a new application and license. The new application should refer to the expired license. It should not include references to any defense articles other than those of the unshipped balance of the expired license.

(b) Unused, expired, expended, suspended, or revoked licenses must be returned immediately to the Department of State.

§ 123.22 Filing of export licenses and Shipper's Export Declarations with District Directors of Customs.

(a) The exporter must deposit the license with the District Director of Customs at the port of exit before shipment, unless paragraph (d) of this section or § 125.9 applies (for exports by mail, see § 123.24). Licenses for temporary export or temporary import are to be retained by the exporter and presented to the District Director of Customs at the time of import or export for endorsement. If necessary, the export may be made through a port other than the one designated on the license if the exporter complies with the procedures established by the U.S. Customs Service. Every license will be returned to the Office of Defense Trade Controls by the District Director of Customs when the total value or quantity authorized has been shipped or when the date of expiration is reached, whichever occurs first.

(b) Before shipping any defense article, the exporter must also file a Shipper's Export Declaration with the District Director of Customs at the port of exit (unless otherwise exempt from filing a Shipper's Export Declaration). The District Director of Customs at the port of exit must authenticate the
